2491B Cable/6701B Cable - Flexible Single Core Cable LSZH - 0.75mm² to 300mm²

Description

Single core 2491B flexible cable is primarily used for wiring appliances and for use in metering and switchgear. Due to the low smoke zero halogen outer sheath they can be used in areas of high pedestrian footfall such as hospitals, supermarkets, airports and offices where toxic fumes and emissions would be a health hazard. The flexible single core cable features flexible plain annealed copper conductor and an LSZH outer sheath.

Key Features

Voltage Rating
0.75mm^2 -1.0mm^2: 300/500 Volts (H05Z-K)
1.5mm^2 -240mm^2: 450/750 Volts (H07Z-K)

Minimum Bending Radius
Up to 35mm^2 - 4 x overall diameter
Above 35mm^2 - 6 x overall diameter

Flame Retardancy
BS EN/IEC 60332-1
BS EN/IEC 60332-3-24

Temperature Limits
Fixed: -25°C to +90°C

Core Colours

0.75mm - 2.5mm

Brown | Blue | Green Yellow | Black | Grey | White | Orange | Yellow

Green | Pink | Violet | Red

4mm to 6mm

Brown | Blue | Green Yellow | Black | Grey | White | Yellow | Red

10mm - 300mm

Brown | Blue | Green Yellow | Black | Grey

Standards

- Conforms to H07Z-K
- Conforms to H05Z-K
- BS EN/IEC 60332-3-24
- BS EN/IEC 60228
- IEC/EN 60754-1/2
- BS EN/IEC 60332-1-2
- IEC/EN 61034-1/2,

Construction

- **Conductor**: Class 5 Flexible stranded copper
- **Sheath**: Low Smoke Zero Halogen (LSZH)

QA Lab

Cleveland Cable Test & Training Lab
Our state-of-the-art cable testing facility ensures that every cable meets the highest standards of quality and compliance through continuous, rigorous testing. Where applicable, cables are independently tested and certified by BASEC to ensure full compliance.

CPR
Cleveland Cable Company is committed to compliance with the Construction Products Regulation (CPR). Where applicable, all cables manufactured after 1st July 2017 have been assessed in accordance with CPR requirements, with full supporting documentation available.

Our Sustainability Commitment

We are committed to the journey to Net Zero as a business partner, an employer and a community member.

By thinking and acting sustainably, we deliver excellent customer service while reducing carbon emissions in collaboration with our customers and suppliers.

ecovadis
Cleveland Cable Company has been independently assessed by EcoVadis, a globally recognised provider of business sustainability ratings. Our score places us among the top 35% of companies evaluated worldwide, reflecting our strong commitment to environmental, social, and ethical performance

Where it is intended to connect the cables in this table to equipment or accessories designed to operate at a temperature lower than the maximum operating temperature of the cable, the cables should be rated at the maximum operating temperature of the equipment or accessory (see Regulation 512.1.5). Where it is intended to group a cable in this table with other cables, the cable should be rated at the lowest of the maximum operating temperatures of any of the cables in the group (see Regulation 12. I .5). For cables having flexible conductors see section 2.4 of this appendix for adjustment factors for current-carrying capacity and voltage drop.
