

Cat 5E UTP 4 Pair SWA LSZH Cable

Description

CAT5e Supports speeds up to 1 Gigabit per second (Gbps). and a bandwidth at a frequency of 100 MHz. This is a popular and cost-effective choice for most residential and small business needs, such as basic internet usage and streaming. This is an armoured multi-pair high performance cable that consists of 4 twisted pairs, which is used mainly for data transmission between wired computer networks. The LSZH sheath makes it perfect for installations where smoke emissions and toxic fumes create a potential risk to life in case of a fire. This cable is compliant under CPR 2017 for use in public buildings.
