

Researcher

Job Type: Permanent / Full Time

Salary: Negotiable Depending on Experience

We are seeking a passionate, tenacious results driven Researcher to work within our Business Development Team based in our head office in Middlesbrough. The successful candidate will be responsible for researching new business sectors and projects relevant to the electrical distribution industry utilising a number of different platforms and in-house systems. As part of the team, they will also work closely with our wider branch network.

Candidates should demonstrate the following skills:

- Excellent communication skills both verbally and written.
- Attention to detail.
- Good organisational skills
- The ability to effectively seek out new business and report findings.
- Enthusiasm and willingness to learn.
- A proven track record of working under pressure as part of a team.
- Experience using and creating Microsoft office and excel spreadsheets.
- Insight to be able to identify and research emerging technology opportunities in the Electrical Industry.

Please send your CV along with a covering letter to careers@clevelandcable.com
