

## FG16M16 Power Cable - 1.5mm<sup>2</sup> to 630mm<sup>2</sup>

### Description

For indoor and outdoor installations, also in wet locations; for fixed installation on masonry or on metallic structures; direct laying in earth is permitted.

These cables are suitable for general applications in construction works subject to fire reaction requirements; for bundle installations with high risk of fire due to the high crowd density or due to the long time for displacement or to the big damage to animals or things, according to the standard CEI 64-8/7 having fire reaction class Cca-s1b,d1,a1.

Their use is suitable in places at risk of explosion or fire, which include thermal power stations and power stations, chemical and petrochemical plants, steelworks, fuel installations.

Further information and warnings for the use of these cable is given in the CEI 20-67's Standard.

### Key Features

**Voltage Rating**  
600/1000 V AC  
900/1500 DC  
600/1200 Volts AC  
1800V DC

**Minimum Bending Radius**  
4 x Overall Diameter

**Oils, Greases and Chemicals Resistant**  
Yes

**Flame Retardancy**  
BS EN/IEC 60332-1-2

**Temperature Limits**  
Temperature Range: -15°C to + 90°C  
Maximum short-circuit temperature: 250°C

**CPR Compliant**  
Yes

### Core Colours

Single Core : Black

### Standards

- EN 50575:2014+A1:2016
- IEC 60228
- IEC 60754-2
- IEC 61034-2
- BS EN/IEC 60332-1-2
- EN 50399
- CEI UNEL 35324
- CEI 20-13
- UNI EN 13501-6

### Construction

- **Conductor:** Class 5 flexible, plain copper wire
- **Insulation:** G16 Hard Grade Ethylene Propylene Rubber (HEPR)
- **Filler:** Thermoplastic filler with reduced emission of corrosive gases
- **Outer Sheath:** M16 quality thermoplastic compound
- **Sheath Colour:** Green

### QA Lab

#### Cleveland Cable Test & Training Lab

Our state-of-the-art cable testing facility ensures that every cable meets the highest standards of quality and compliance through continuous, rigorous testing. Where applicable, cables are independently tested and certified by BASEC to ensure full compliance.

#### CPR

Cleveland Cable Company is committed to compliance with the Construction Products Regulation (CPR). Where applicable, all cables manufactured after 1st July 2017 have been assessed in accordance with CPR requirements, with full supporting documentation available.

### Our Sustainability Commitment

We are committed to the journey to Net Zero as a business partner, an employer and a community member.

By thinking and acting sustainably, we deliver excellent customer service while reducing carbon emissions in collaboration with our customers and suppliers.

#### ecovadis

Cleveland Cable Company has been independently assessed by EcoVadis, a globally recognised provider of business sustainability ratings. Our score places us among the top 35% of companies evaluated worldwide, reflecting our strong commitment to environmental, social, and ethical performance
