

Legrand Tray - Couplers

Description

Legrand couplers are used to join and connect cable management systems like cable trays and cable ladders. They are designed to create secure and seamless connections between different sections of these systems, ensuring a continuous pathway for cables and wires. Specifically, Legrand offers various types of couplers for different cable management products, including those for heavy-duty and medium-duty cable trays and ladders.

Legrand couplers are used to connect straight sections of cable trays, allowing for longer cable runs and more complex layouts. Similar to cable trays, couplers are used to join sections of cable ladders, providing a sturdy and reliable support structure for cables.

Legrand offers different types of couplers, such as those for pre-galvanized and hot-dip galvanized cable trays and ladders, and also specialized couplers for specific ranges like Swifts and Salamandre.

Key Features

Standards

Construction

QA Lab

Cleveland Cable Test & Training Lab

Our state-of-the-art cable testing facility ensures that every cable meets the highest standards of quality and compliance through continuous, rigorous testing. Where applicable, cables are independently tested and certified by BASEC to ensure full compliance.

CPR

Cleveland Cable Company is committed to compliance with the Construction Products Regulation (CPR). Where applicable, all cables manufactured after 1st July 2017 have been assessed in accordance with CPR requirements, with full supporting documentation available.

Our Sustainability Commitment

We are committed to the journey to Net Zero as a business partner, an employer and a community member.

By thinking and acting sustainably, we deliver excellent customer service while reducing carbon emissions in collaboration with our customers and suppliers.

ecovadis

Cleveland Cable Company has been independently assessed by EcoVadis, a globally recognised provider of business sustainability ratings. Our score places us among the top 35% of companies evaluated worldwide, reflecting our strong commitment to environmental, social, and ethical performance.
