

Railway Track Feeder Cable - Aluminium or Copper, CSP - 150mm to 1000mm

Track feeder cable provides 650/750 Volt DC supply between railway substations and track paralleling units to conductor rails. Track Feeder cable features uncompacted circular stranded aluminium or uncompacted circular stranded copper conductors.

Key Features

Voltage Rating
750/900 Volts

Minimum Bending Radius
8 x Overall Diameter

Water Resistance
Yes

Temperature Limits
Temperature Range: -25°C to +85°C

Construction

- **Conductor:** Uncompacted Circular Stranded Aluminium or uncompacted circular stranded copper conductors.
- **Sheath:** CSP sheathed type RS4
- **Separator:** Polyester Tape
- **Sheath Colour:** Black

Standards

- BS6360, BS6899, Manufactured to Network Rail specification NR/PS/ELP/21101 (formerly RT/E/S/21101)
