

## Wire Tray

### Description

Legrand wire tray, also known as cable tray, are used to support and route electrical cables, control cables, and communication cables in commercial and industrial settings. They offer a structured and organized way to manage cables, improving accessibility, facilitating maintenance, and enhancing airflow for better heat dissipation.

Wire trays provide a physical structure to support cables, preventing them from sagging or tangling, which can lead to safety hazards and damage. By grouping cables within the tray, they become easier to locate, identify, and access for maintenance, repairs, or future modifications.

Perforated cable trays allow for better ventilation, helping to dissipate heat generated by the cables and preventing overheating.

Wire Tray are available in different materials and finishes to withstand various environmental conditions, including corrosive environments.

### Key Features

### Standards

### Construction

### QA Lab

#### Cleveland Cable Test & Training Lab

Our state-of-the-art cable testing facility ensures that every cable meets the highest standards of quality and compliance through continuous, rigorous testing. Where applicable, cables are independently tested and certified by BASEC to ensure full compliance.

#### CPR

Cleveland Cable Company is committed to compliance with the Construction Products Regulation (CPR). Where applicable, all cables manufactured after 1st July 2017 have been assessed in accordance with CPR requirements, with full supporting documentation available.

### Our Sustainability Commitment

We are committed to the journey to Net Zero as a business partner, an employer and a community member.

By thinking and acting sustainably, we deliver excellent customer service while reducing carbon emissions in collaboration with our customers and suppliers.

#### ecovadis

Cleveland Cable Company has been independently assessed by EcoVadis, a globally recognised provider of business sustainability ratings. Our score places us among the top 35% of companies evaluated worldwide, reflecting our strong commitment to environmental, social, and ethical performance
